
Conditional realizations against exact simple kriging (64 x 64 x 16 grid, 150 data)
SPECSIM3D (200 realizations)
GSTools CondSRF (100 realizations)
rms diff = 0.067
(Monte Carlo error 0.065)
rms diff = 0.091
(Monte Carlo error 0.092)
mean of realizations
exact simple kriging estimate
rms diff = 0.086
(Monte Carlo error 0.086)
regression slope = 1.001
rms diff = 0.123
(Monte Carlo error 0.122)
regression slope = 1.009
variance of realizations
exact simple kriging variance
